Local Business Man Buys Crows Nest Lake Dance Pavilion

Mr. Jack Chalmers recently purchased the Crow's Nest Lake Dance Pavilion from Mr. Harold Morency. Mr. Morency has operated this popular dance spot for a number of years. Situated on the east side of this beautiful lake in sight of the famed Crow's Nest Mountain, this hall has catered to young and old who enjoy dancing. Mr. Chalmers stated that weather permitting this hall would hold its first dance on May 19th with Edis orchestra in attendance, with such novelties as balloons, festive hats, streamers, and what have you to really make this a grand affair. Mr. Chalmers stated further that he will operate the tourist cabins that he also purchased along with the hall.

Buses will be run from Michel, B.C. and if possible one from Blairmore to accommodate dance patrons.

Possible Jr. College For Lethbridge

It was announced by Honorable A. O. Aalborg, minister of education that a meeting was held in Lethbridge, on Friday, April 27, to discuss the question of the establishment of a junior college in that city, to serve both the city and the surrounding area.

Following a smaller preliminary meeting in the morning presided over by Mrs. B. Kipp, chairman of Lethbridge Public School board, a larger meeting was held in the afternoon presided over by Mrs. C. G. Paterson, Lethbridge trustee.

The meeting was attended by Honorable A. O. Aalborg, minister of education, Dean W. H. Johns, University of Alberta, Dr. W. H. Swift, deputy minister of education, Mr. M. L. Watts, department of education, and representatives of the following additional school districts and divisions: Lethbridge Separate School district, Lethbridge School division, Taber school division, Foremost school division, St. Mary's River school division, County of Warner, Pincher Creek school division and Macleod school division. Present also were observers from the Canadian government Science Services Laboratory.

The discussion related to the following subjects chiefly:

(a) The relationship of the proposed college to the University of Alberta with particular reference to courses and staff;

(b) The nature of courses to be offered other than university courses;

(c) The relationship of the Lethbridge Public School Board and the other school boards in the matters of organization, control and financing.

No commitment was given by any of the boards represented either to establish or support a junior college. Further progress appeared dependent upon the readiness of the non-city boards to join the Lethbridge Public School District in supporting a junior college.

A committee representative of the Department, University and both urban and rural school boards was set up to do two things.

1. Prepare a draft proposal covering the administration and financing of a junior college.

2. To study the curriculum of the proposed college with special attention to non-university courses (The pattern of university courses appears reasonably clear.)

The report of the committee will be considered by individual boards and by a further meeting.

May Day Quiet In Coleman

May 1, the traditional remembrance day for United Mine Workers of America was observed in Coleman with the mines being idle. Stores operated as usual, but no special observance of the Mine holiday was held. In Blairmore Mayor W. Gray declared it a public holiday with all stores and business establishments being closed. To the west in Michel B.C., special speakers were on hand to assist the local committee to hold the annual May Day speeches. Considerable numbers of Pass miners travelled to Michel to participate.

Pass Traffic Is Snarled

Traffic in the Crow's Nest Pass area last week suffered the worst tie up it has experienced this winter as both cars and trucks alike became almost immobile battling against the foot deep fall of soggy snow that fell during Tuesday night.

Chans that had been stored away and winter tires that had been removed were once again put into use and snow cleaning equipment including shovels were put to good use to clear the Pass of the heavy disgusting fall of snow.

Although snow continued steadily during the morning, the sun broke through in the afternoon and helped to clear the highways of slush.

With the heavy fall of snow, town foremen in the district are looking with wary eyes to rivers in the area that will have to handle the runoff of the present snowfall besides the heavy accumulation that is still lying in the valleys of the surrounding mountains. Although river banks have been repaired during the past two years, a sudden warm rain might cause difficult situations in various parts of the Crow's Nest Pass that have not yet been repaired and ripped apart for flood control.

Bellevue Legion Hold Pass Dart Tourney May 1st

BELLEVUE — The Open Dart Tournament sponsored by the Bellevue Legion on May 1st was exceptionally well attended with thirty-three teams from the district entering. The event was so well enjoyed that the Bellevue Legion have announced that the tournament will become an annual affair.

Winners of the tournament were 1st, Sofie Blanchini and Simon Sorenson of Bellevue who received a wrist watch and fly rod respectively for their skill; 2nd, Doris Ulrich and Ray Sioman of Blairmore; 3rd, Marie Kinnear and Scottie Fleming of Coleman and 4th, Lilly Plan and John Hungar of Bellevue.

During the games the Bellevue Legion served the competitors a lunch.

During this week the Blairmore dart players visited the Hillcrest Club to participate in the Club dart tourney. Winners of the affair were 1st, Les Sioman and Sam Civitaresse; 2nd, Frank Wisler and Ken Caswell; 3rd, Dan Popovich and Charlie Sioman and 4th Frank Rodinyak and Jerry Pinotti.

Former Pass resident passes in Calgary

BELLEVUE — Word has been received of the death of Mrs. Ellen Driscoll Tompkins of Calgary and formerly of Blairmore. Mrs. Tompkins, age 78, was born in Prospect, N.S., and moved to Frank, in 1909. In 1925 she moved to Blairmore and came to Calgary in 1943.

She was a member of the Catholic Women's League and of St. Mary's Cathedral in Calgary.

Surviving are her three daughters: Mrs. J. A. Simpson, Lethbridge, Miss Ellen Tompkins and Miss Frances Tompkins both of Calgary; two sons, Myles, Edmonton, and Jack of Bellevue; six grandchildren; one brother, William Christian, Prospect, N.S.; one sister, Miss Nan Christian of Eureka, California.

Prayers were said in St. Mary's Cathedral Monday, April 30, at 7:30 p.m. and the Knights of Columbus met for prayers at McInnis and Holloway Funeral Home also on Monday at 8:00 p.m.

Pontifical High Mass was celebrated in St. Mary's Cathedral at 10:00 a.m.

Interment followed in the family plot of St. Mary's cemetery.

Her son, Jack, is an employee of the Coleman Collieries, being an accountant in the office of this company.

Most of the support for cancer research in Canada comes from voluntary contributions collected during the April Cancer Campaign by the Canadian Cancer Society.

FREE PICK-UP STARTS MAY 7 to 19 ON CLEAN-UP PROGRAM

Town trucks will be picking up refuse in Coleman this week and next, in accordance with the Clean-Up program sponsored by the Coleman Town Council. Property owners and occupiers are asked to have such debris as they wish moved, in suitable containers.

In this connection we would give these suggestions . . . Don't let fire hide in your home. Clean-Up, Paint-Up, Light-Up.

"That old box of cast-off clothing, the pile of newspapers in the basement, the oily mop in the closet, and the storeroom's flammable liquids are all hideaways for fire threat."

For the protection of your family and home get rid of old clothing, magazines, mattresses and papers. Protect wood surfaces with paint. Unpainted wood is ready fuel for fires. Dispose of oily mops and rags and all flammable items. Get rid of dried grass and leaves, especially those near the house foundations. Check your wiring to be certain it is adequate to meet today's requirement in the electrical field.

Fight fire before it starts by getting rid of its hiding place.

Rodeo Official Reports Parade Entries Coming in Good

Parade Marshal E. Corsan states that today there are 28 entries in the float section, 19 displays and 10 decorated cars entered in this year's rodeo parade. Hopes are high to have the Planter's Peanut float in this parade. Word is expected in the near future in this regard. Two business houses from Cranbrook will send floats, Veniza Hotel and Cranbrook Sheet Metal. Sick's of Lethbridge have consented to send an outstanding float. Over 15 bands have been approached to attend with the C.N.P. band, Coleman Pipe Band already consenting to attend. The Queen's Own Regiment of Calgary have signified their willingness to attend if the Western Command give consent. The P.P.C.L.I. Band, H.M.C.S. Teumesh band and the Cranbrook Girls' Band will not be able to attend due to engagements on this day.

Attempted Break-in Foiled by Iron Bars On Windows

Iron bars protecting the rear windows and door of the Coleman Pharmacy foiled a would-be thief last week. Person or persons unknown attempted to enter the drug store through the rear windows. Damage was sustained to windows and doors, it is believed that possible drug users may have been responsible. With the continued crack down and the conviction of drug peddlers in the west has pushed the drug users to attempt to obtain these drugs by a more direct method. Chief of Police Corsan is continuing investigation.

Teachers' Institute Held in Bellevue

Last Thursday, April 26th, the boys and girls of grades 1 and 2 had a holiday, but their teachers worked much longer than usual that day. The reason was the teachers' Institute held at Maple Leaf school, Bellevue. Miss Helen Suka and her class, carrying through the regular morning program gave an excellent demonstration of a good classroom in action. The quiet efficiency of the teacher and the wide variety of her teaching techniques and the multitude of teaching materials provided an interesting and stimulating morning for the twenty visiting teachers.

The afternoon was spent in a round-table sharing of ideas about primary problems and methods. After four o'clock the discussion continued while a delicious lunch was served by the grade 7 and 8 girls and the staff of the school.

gagements on this day.

Efforts are going forward to obtain bands from Natal, Fernie, Cranbrook City Band, Claresholm R.C.A.P. Pipe Band, Calgary Highlanders, Calgary Shrine's Bands, Calgary Elk's Band, Great Falls American Legion Band, A.N.A.P. Pipe Band, Lethbridge and many others. The parade is expected to completely dwarf last year's two mile long parade.

Mr. Corsan stated further that he had been informed that a number of movie and radio stars will be in the near vicinity on July 7 and he hopes to have some make an appearance here.

It is hoped that all Pass merchants will enter displays, decorated cars or floats. Citizens are especially invited, to get behind Coleman's big event with entries in the decorated car event.

Coleman Collieries Set Safety Record In April

Officials of Coleman Collieries were jubilant last week on the wonderful response to their safety program, when a "no accident" record was hung up for the month of April.

To show their appreciation the Collieries passed out packages of cigarettes to the workers on last pay day.

This record is remarkable inasmuch as coal mines have been considered as one of the most dangerous occupations in our numerous industries today. With the mine operation going at full blast this last month all of the persons involved in this setting of an outstanding record are to be congratulated by all.

To Relate Experiences In Arctic To Fish, Game Assn. May 11

Mr. Bill Kerr, who has recently returned from a five months' stay in Canada's Arctic will address the members of the Coleman Fish and Game Association in the Grand Union banquet room on May 11.

Pictures that he took while in the Arctic will be shown. Bill is the son of Mr. and Mrs. Jim Kerr who operate the Chinook cabins west of Coleman, and only recently was awarded the Eugene Higgin Fellowship in Geology at Columbia University, New York City.

Bill will report to the university on September 25th to take advantage of this \$2500 scholarship.

C.N.P. Bowling League Standings

With the completion of play in the C.N.P. bowling league we find the Coleman Hotel topped the league play. Players on this winning team were comprised of John Bielish, Capt., supported by Mary Bielish, Evelyn Ferrano, Agnes Rypien and Walter Doubinlu. The final game for the championship was between Coleman Hotel and the Rockies.

League Standings:
Coleman Hotel — won 15 lost 6
Rockies — won 14 lost 7
Zero's — won 13 lost 8
Grand Union — won 12 lost 9
Ban kers — won 10 lost 11
Slims — won 9 lost 12
Dynamos — won 9 lost 12
Burmis — won 2 lost 19
High men's score — Harry Harris 310.

High ladies' score — Anne Wilson 285.

High men's average — Brian park 185.

High ladies' average — Evelyn Ferrano, 173.

To highlight the completion of a very successful season of play the teams are planning a banquet and dance, where the prizes will be awarded. All players were very pleased with the results obtained with this year's play and hope for a bigger and better league in 5 pin bowling next year.

Coleman Elks Sponsor Famed Singer, Former Resident

Many Barons, contralto, who presented a varied program of songs on Wednesday, May 9th at Coleman Elks' Hall, was born in Coleman where she spent most of her formative years, studying piano. She continued her musical studies in Winnipeg, Manitoba, and has appeared as vocal soloist and arranger of ensemble singing on regular coast to coast radio programs.

Following her marriage to George Bornoff, noted violin pedagogue, she pursued her vocal studies in New York, and in Boston with Roland Hayes, the renowned negro tenor. Miss Baron has given concerts in New York, Boston, Washington, D.C. and as far west as Washington State. Everywhere she has met with acclaim for artistry, the lovely quality of her voice, and her interesting and well-chosen programs.

Miss Baron's concert in Coleman marks her first visit to the Pass as a concert artist. She was sponsored by Coleman Elks Lodge No. 117. Her accompanist is Beatrice Trono Costigan of Blairmore.

Variety Concert Large Success

COLEMAN — The first in a new series of variety concerts was held in the Coleman High School auditorium on Friday, April 27. A capacity crowd expressed their appreciation by a warm and enthusiastic applause. Mr. Art Graham was master of ceremonies. Music students from Mrs. Buckna's piano and piano accordion classes and dancing pupils of Mrs. Jenson of Bellevue, were assisted by vocal and violin students.

The Coleman very junior tumblers entertained the audience immensely. These children are supervised by Edward Vincent and Walter Tymchyni of Coleman.

Winners from the Lethbridge Music Festival were also featured on the night's program and of special interest were the Tiny Tois in a colorful folk dance and beautiful costumes in "The Rhapsody in Blue."

Trophy presented to High School curling team

At a recent supper meeting of the Coleman Lions, Mr. A. Graham presented the High School curling trophy to skip Sheila Penny, others on the team were 3rd, Margaret McDonald, 2nd, Jerry Wynzar and lead Caron Johnson.

District governor for the Lions, Mr. D. Thornton gave a very interesting speech on the Lions movement.

Coleman Collieries Outside Workings Go On Double Shift

Due to the continued demand from Coleman mines, Coleman Collieries have decided to go on the double shift to meet this demand. Only a couple of months ago this two-shift operation was dropped as it was not considered necessary.

Increase in demand, however, necessitated the working of considerable overtime to meet production demands. The re-opening of the Tent Mountain strip mine will be brought into effect in the next week or 10 days according to reports.

As to how long this two-shift operation will be required is not known but will probably continue as long as the present demand for coal is in effect.

Explorers Affiliate with W. M. S.

At a recent meeting of the Explorers the Women's Missionary Society attended for the purpose of affiliation. The Explorers completed their missionary study on Canadian Indians and new Canadians, under the direction of Mrs. J. Rushton.

Patsy Hurd told about the quilt the girls made, each one being responsible for a square. The quilt was sent to Rev. Roy Taylor to present to an Indian family or a residential school.

Taking part in the service were Donna Nelson, Chief Explorer; Elsie Widzyk, Marie Yakula, Sharon Suduth, Wanda Dunford, Donna Tratz and Linda Love.

Keeper of the Treasurer, Sharlet Dunford, made a cash donation to Mrs. M. McKinnon, president of the W.M.S. Jim Walmsey presented a donation for the Missionary and Maintenance Fund.

A play "Skinny's Pal" showing the help given by Church Workers to new Canadians, was presented by the girls. Taking part were Patricia Picard, Donna Hurd, Elaine Townsend, Donna Nelson, Doreen Derbyshire, Janette Sriesen, Randy Kinnear, Judy Coover, Elsie Widzyk, Linda and Carol LaButte. Shirley Campbell introduced the players and told about the play. Mrs. R. McAulay was pianist for the afternoon.

Announcements were made by Carrie Horn, junior leader.

The Explorers have also studied the local community and have visited the post office where Mr. Graham kindly explained what happens behind the scenes. The Journal office where they saw The Journal being printed and had their many questions answered by Walter Tymchyna and Mr. T. Holstead.

At present the girls are exploring "The Home" with discussions on family life and good manners. Table setting has been demonstrated and the girls will be practicing the art at their next meeting. A Mother and Daughter banquet will be held in May. This is the very best event for the girls and winds up their meetings until September.

District Sportsmen Win Coveted Awards

J. P. Kubasek of Tod Creek, Alberta, has been advised that he has won first prize for his Big-horn sheep entry in the 1954-55 North American Big Game competition, sponsored by the Boone and Crockett Club of New York. This coveted award is open to sportsmen of the North American continent and the record head was taken in the Willow Valley area on the eastern slope of the Canadian Rockies.

Second prize in this competition was won by George Haglund of Beaver Mines, Alberta, while fourth prize went to Nick Sekella of Tod Creek, and fifth prize to S. Kubasek, also of Tod Creek.

Previously Mr. J. F. Kubasek had been awarded a medal and certificate for first prize in a similar competition held last year at the Calgary Sportsmen Show. He also won a trophy, grand champion shield and other prizes at the Willow Valley Trophy Club competitions.

GARDEN NOTES—

Garden will give steady production with planning

For a summer long supply of bloom, or fresh vegetables, we must know how long it takes from the time of planting until we have the first bouquets or salads. To keep on having bouquets and salads right through the summer, we make several plantings two or three weeks apart, and we also may use an early, a medium and a late maturing sort.

Today's garden is no longer a feast and famine proposition, with more peas, beans or corn than we can eat for a week and then none at all, or with a great showing of bloom in July but not a single flower in August.

With a little planning and a good seed catalogue there is no reason why flowers or vegetables should not be yielding something every day from the first blooms and greens in the spring until long after the ground is frozen hard next fall.

Suitable tools

For getting in close to tiny flowers or vegetables, for weeding and a few other delicate jobs, it may be necessary to get down on knees or knee pads but with a little care a great deal of the ordinary garden cultivating and planting jobs can be handled with a minimum of stooping. Spades, forks, ditch hoes, spade and many of the hand cultivators can be purchased with good long handles which permit operation without any back bending at all. All of these, and other tools too including the lawn mower, it should be remembered, will work easier and faster if their cutting edges are kept sharp. For this purpose an old file will be handy and a little oil will also help.

As for special pests, one should provide himself with a good bulletin so that any trouble can be identified and the proper dust or spray applied. It is not a bad idea to take your troubles to the nearest seed store and let the experts there prescribe treatment. With the modern dusts and sprays that handle all sorts of bugs and diseases, either singly or in combination, it is no trouble to check pests, and especially if we get them early.

It is a shame to see fine plants tangled and sprawled over the ground, when it is so easy and simple to provide the necessary support. Little things of course can stand by themselves, but the bigger and bushier flowers, and such plants as tomatoes, carnations, and especially in seasons of heavy rain and wind.

For the bushier flowers like delphinium, zinnias, marigolds, peonies and so on, support can be furnished that will soon be virtually invisible. Before the big growth starts we place the support and simply let the plant grow around and through it. For this purpose we may use metal rings, hoops or a foot or so of chicken wire arranged in a loose cylinder about the plant. Another good plan is to place some brush firmly in the ground and close to the main stem. In a few weeks the plant completely hides the brush but the support is there.

For tall, individual plants like dahlias, lilies, tomatoes and similar things we use stakes stained brown or green perhaps, and these are hammered firmly in the ground within a couple of inches of the

plant first thing in the spring, so that the roots will not be disturbed.

For climbing plants like sweet peas, morning glories, pole beans and so on, chicken wire netting, old tennis netting, strings, or brush will serve and here again the support should be placed early, so that roots and plants will not be damaged.

Family mourns versatile crow

Klaus the Crow is missing and the Rasmussen family of Winnipeg, and their three dogs and two cats are in mourning, a Canadian Press story relates.

Klaus could sing "How Much Is That Doggie in the Window?" He danced to radio music. He could weave like the Rasmussen cats.

But such a bad little bird. Not long ago he took the lid off the potato pot and filled it with soap powder. When Mrs. Rasmussen accused him of the crime he cried: "Mickey did it, Mickey did it."

Mickey's a dog.

"He turned out old heater off," said Mrs. Rasmussen, who went to Winnipeg from Denmark six years ago with her family. "And he ate all my potted plants."

First to table

"He was the first one to eat dinner. If he sat on the chair first, you couldn't get him off. Oh, he was the boss in the house but he was so funny, so funny."

Klaus was rude to the neighbors. One day he cried "oh, shut up" to the man next door. The man called back "Shut up yourself." After that whenever the man appeared Klaus greeted him with: "You is a bad man."

At last reports Mrs. Rasmussen was watching for a crow that was seen flying around a school in suburban St. James. A teacher said the children told her the crow says "shut up."

East opened this hand with One Heart. South passed, and West bid One No-Trump. North intervened, and South made a final contract of Three Clubs. East-West missed game in Spades, and an odd comment appeared in a magazine: East's opening bid should have been a Spade. The Heart bid led eventually to suppression of the Spades.

In fact, it is often vital to open with the longer suit on a hand like East's; otherwise, he may be given preference for the suit he does not prefer and find himself unable to cope with Club force. There is no need here for a prepared Spade, since One Heart can be followed if necessary by a rebid of Two Diamonds.

The report ignored West's bid of One No-Trump. Any five-card suit is biddable, and would cost nothing to indicate the spot in which he is most likely to take tricks.

Tangier combines ancient, modern for tourists

MONTREAL.—Tangier, colorful international port of the northwestern tip of Africa at the entrance to the Strait of Gibraltar, is a place where anything can happen—and frequently does.

A combination of East and West, of the old and the new, . . . ancient Kasbah and Sultan's Palace, modern resort hotels and lively cabarets . . . this Moorish-Spanish-French city is a place of infinite variety that will delight passengers on the Spring cruise of the Cunard liner Caronia when they arrive on May 15.

They will especially enjoy bargain hunting along the narrow streets of the old Moorish section, buying "poufs," costume jewelry and silk brocades embroidered with gold and silver threads.

The legendary founder of Tangier was Antheus, a son of the god Neptune, who named the place "Tingo" after his wife. Antheus was slain by Hercules, who came to Tingo to visit the nearby Gardens of Hesperides, where he also slew a hundred-headed dragon, then appropriated the Golden Fruit and took it back to Greece. Centuries later, when the English first occupied Tangier, men again went in search of the golden fruit which grew in the surrounding hills . . . they called them "tangierines," a name which has struck to those sweet miniature oranges down to this day.

WEEKLY BIBLE COMMENT

BIBLE TELLS US
JUST WHAT MAN IS

The Bible asks, in Psalms and Hebrews, "what is man?" And it then gives the answer with a completeness unequalled anywhere else in literature. Its answer is unsurpassed even in the delvings of modern psychology.

In the Bible, man is revealed in all the heights and depths, aberrations and variations of his acts and character, with nothing withheld.

In the early record man appears as an unbrotherly murderer, Cain becoming the symbol of the unbrotherly murderers of all time, including our own.

Man is a liar, even in the lapses of the good Abraham (Genesis); a cheat in the weak but ultimately better Jacob; an adulterer in the strong and great David; an oppressor in the glorious builder, Solomon.

In these and many other characters is expressed what man has been and is, in lust and cruelty; in ruthless ambition and misuse of power; in slackness and weakness; in petty and major sins and transgressions.

It is all there—the Bible's answer to the question, "what is man?" But the uniqueness of the Bible is this: with all the realism concerning man's degradation and degradation of himself and his fellows, it also reveals man in all the heights of his possibilities and attainments.

In contrast to its Ahab and Jezebel are the Johns, Josephs and Simeons, the Annas and the Marys. In contrast with all the depths are the pinnacles of man's aspirations and glories.

Nor is this all. For man in the depths there is the favor and grace of God. The Bible is the Book of the Gospel, of faith and hope, of restoration and uplift, of a new life.

MARCH, THE DECEIVER

Those warm March days are often deceptive, so it does not pay to discard rubbers and overshoes too soon. Wet or cold feet can lead to colds and chills. And when the new shoes for spring and summer are being purchased, they should be chosen for comfort and suitability. High heels and scanty uppers are not suitable for school or for long hours of work. 3189

WARDROBE WONDER

Sun dress and town dress from this one pattern

4722 SIZES 12-20
by Anne Adams

Graveyard sundress in long-torso effect—city-going fashion when you button on the clever collar-ette! You'll be well-dressed for any occasion with a smart combination like this! As easy to sew, as it is flattering to wear!

This pattern easy to use, simple to sew, is tested for fit. Has complete illustrated instructions. Send thirty-five cents (35c) in coins (stamps cannot be accepted) for this pattern. Write plainly Size, Name, Address and Style Number and send orders to:

Household Arts Department,
Department P.P.L.,
60 Front Street W., Toronto.

Anglo-American accent fusion bit of problem

American youngsters of United States servicemen stationed in Britain are mixing so much with their English counterparts that the mother of one said recently her son's native southern drawl and English accent have so mixed "we can't understand what he says."

Some of the kids are even off baseball and on to the English game of cricket.

The amusing little incidents were revealed at the annual conference of American Women's Activities attended by 200 delegates. They represented some 50 clubs for servicemen's wives in Britain.

The speech complaint came from Mrs. Margaret-Betty Hyde of Knoxville, Tenn., chairman of the conference. She said "My son's English accent is mixing so much with his southern one we can't understand what he says."

"We have to learn cricket, too," she said. "The only time he plays baseball now is to please his dad."

Mrs. Alice Ankey of Dallas, Tex., said her daughter's English accent was "cute." But seven-year-old Kathy is critical of the way her mother speaks.

"You don't speak English very well," Kathy told her.

Mrs. Ankey said she has two daughters at school "and they just love those bright red blazers and skirts."

"So do I—it means less work for mother."

CHASING SOMETHING

Charles A. Schrade, high school history teacher, was really anxious to see a cowboy movie when it had its first run at San Antonio.

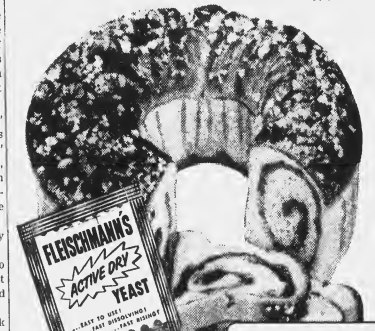

He worked as a cavalryman—when the movie was filmed in Utah in the summer of 1955.

"In one scene we were wildly chasing something—or someone. Just what, we were never told. I have a strong suspicion it was Indians. Now I can find out."

Luscious HONEY BUN RING

Quick to make
with the new
Active Dry Yeast

● Hot goodies come puffin' from your oven in quick time with new Fleischmann's Active Dry Yeast! No more spoiled cakes of yeast! No more last-minute trips—this new form of Fleischmann's Yeast keeps in your cupboard! Order a month's supply.

HONEY-BUN RING

● Scald 1/2 c. milk, 1/2 c. granulated sugar, 1/2 tsp. salt and 1/2 c. shortening; cool to lukewarm. Meanwhile, measure into a large bowl 1/2 c. lukewarm water, 1 tsp. granulated sugar; stir until sugar is dissolved. Sprinkle with 1 envelope Fleischmann's Active Dry Yeast. Let stand 10 mins. THEN stir well.

Add cooled milk mixture and stir in 1 well-beaten egg and 1 tsp. grated lemon rind. Stir in 2 c. once-sifted bread flour; beat until smooth. Work in 2 c. (about) once-sifted bread flour. Knead on lightly-floured board until smooth and elastic. Place in greased bowl and grease top of dough. Cover and set in warm place, rise until doubled. Let rise until doubled in bulk. Punch down dough and roll out into a ring, oblong about 9" wide and 24" long; loosen dough. Combine 1/2 c. lightly-packed brown sugar and 1/2 c. liquid honey; spread over dough and sprinkle with 1/2 c. broken walnuts. Beginning at a long side, loosely roll up like a jelly roll. Lift carefully into a greased 8 1/2" tube pan and join ends of dough to form a ring. Brush top with melted butter. Cover and let rise until doubled in bulk. Bake in moderately hot oven, 375°, 45-50 minutes. Brush top with honey and sprinkle with chopped walnuts.

Couchgrass control by tillage

Couchgrass can be almost completely eradicated from a field in a single year, says Dr. A. C. Carder of the Beaverlodge Experimental Farm, providing excessive moisture does not preclude proper tillage.

The first operation must be made late in the fall, as close to freeze-up as possible. Whether a mould-board plough or one-way disc is used, the implement must be sharp and adjusted to do the job properly. The average depth of the couch root-stalks should be noted and the implement set to cut just below this depth. The broken sod goes into winter undisturbed.

Next year, as soon as the rush of spring work is over, the field is worked with a sharp one-way disc so that every stroke overlaps half the previous cut. This operation is repeated as soon as about two inches of fresh green growth appears. The object of the lapping is to insure proper shredding, essential for dormant bud stimulation. The object of permitting some green growth to occur is to cause the buds to expand their energy, yet not to give sufficient time for the manufacture of food.

What follows next depends on the weather. As long as the soil remains moist, the use of the one-way disc is continued, on the half-lap if there is still much fibre, otherwise on the single stroke. Under dry conditions continued shredding of the couch root-stalks available little as they become dormant. Then, the one-way disc is discarded for a cultivator-wireweeder combination. The cultivator with chisel points and wireweeder with some cables removed will till the root-stalks on the surface to dry out. Should the soil again become reasonably moist working by one-way is resumed.

Nine to 10 cultivations are usually enough to eradicate couchgrass. They must be properly timed and carried out with the right implement. The program is rigid and unless strictly adhered to will fail in its objective.

Since the small pieces of root-stalk and dormant seed survive a single year's treatment, follow-up cultivations will be necessary. A good practice is to seed an early maturing barley and use the one-way several times after harvest. Following this, the field should be closely watched and surviving plants killed by chemical.

SUPERSTITION

The expression "he was born with a silver spoon in his mouth" is said by The Book of Knowledge to date from the Middle Ages. A newborn baby had a silver spoon put into the mouth to drive out diseases, but only the wealthy could afford to indulge in this superstition.

Concentrated milk industry

At the Annual Convention of the Ontario Concentrated Milk Producers' Marketing Board, held recently in Hamilton, Ont., D. B. Goodville of the Canada Department of Agriculture stated that there is every reason to believe the 1956 production of concentrated milks might reach or exceed the half-billion pound mark. Whole milk production is expected to be at record levels this year so there should not be any shortage of raw material.

If the present trend in domestic sales and exports of evaporated milk is to be maintained the volume of production must be increased. Canada will probably produce around 395 million pounds this year which is about the same as the 1952 record, and this figure could even go higher if export demand improves.

The manufacture of dry whole milk depends almost entirely upon exports, as less than 25 percent of the production is used in this country. At the present time there is nothing to indicate that exports of this product will be seriously curtailed.

The production picture for dry skimmed milk is somewhat uncertain at the moment as the full effect of imports and strong cash markets are not known. Production of dry skim was almost 88 million pounds last year and prospects are that this year will be a record one, possibly reaching 90 to 95 million pounds.

Substantial imports of concentrated products are expected before spring. As early as last June it looked as if supplies would be inadequate and with the dry weather in July, orders for some two million pounds were placed. Further orders were placed as the season advanced with the result that some four to five million pounds will be imported.

Concentrated milk products continued to be Canada's chief export dairy product both in volume and value in 1955. These products were shipped to some 40 different countries and amounted to \$5 million in value. Volume, however, actually declined by approximately four million pounds from 1954. A combination of factors such as quotas, embargoes, currency, lack of supplies and price were responsible for this decrease—price being the chief cause of the reduction.

For a number of years consumption of concentrated milks in Canada has been increasing each year and 1955 was no exception. Last year there was an increase in consumption over the previous year of around 18 million pounds. Population growth and a continuing high level of the economy were the more important factors influencing this trend.

Dry skimmed milk consumption has almost doubled since 1949 and last year Canadians consumed some eight million pounds more than in 1954.

Quality of instant products is improving and new brands backed by promotional campaigns are expected this year. There is a tendency in some markets to prefer a lower fat product, especially for baby feeding and also for use in lumber camps.

All told the prospects of the concentrated milk industry during 1956 should prove reasonably satisfactory from both domestic and export standpoints.

Are injuries necessary?

Some time ago, Sports College completed a survey of some 1,000 injuries suffered by teen-age athletes in Canada. With baseball, tennis, track and field and swimming seasons' just around the corner, it might be interesting to look at the figures uncovered by this survey.

Here, in order of their importance, are the major causes of injury:

1. Poorly kept playing areas (20 percent).
2. Fatigue in the latter stages of competition owing to poor physical condition (17 percent).
3. Lack of skill, especially when competing against opponents of far superior skill (13 percent).
4. Insufficient muscular strength in key areas of the body (12 percent).
5. Insufficient warm-up before activity (10 percent).
6. Unattended minor injuries (9 percent).
7. Inadequate and properly fitting equipment (9 percent).
8. Fear and the resulting tension (5 percent).
9. Inefficient and loose officiating (5 percent directly attributed).

This study showed about 90 percent of these injuries can be avoided, particularly those due to poorly kept playing areas, poor physical condition, insufficient strength, unattended minor injuries and ill-fitting equipment. We suggest every athlete, coach and physical education leader evaluate the situation in their area and make up their mind to do something about it this year.

The cause of inaccurate throwing

How's your throwing arm? If you have trouble hitting the mark, check to see if you're making the major mistake of "cross-stepping". This is said to be the greatest single cause of inaccurate throwing.

Cross stepping simply means that as you come forward in the throwing action, your foot is moved across in front of the body slightly with the toes pointed off to the side. This locks the hips and prevents free movement of the nucleus.

In the correct action, the lead leg should move straight toward the target. Toes should point directly toward the mark you are trying to hit.

Practice this action during the coming season, and see if it doesn't improve your throwing ability—not only your accuracy but your speed as well.

Sports College has announced a national service for the development of amateur sports and physical fitness levels in Canada. This newspaper is pleased

New kinds food plants in prospect

New kinds of potatoes, tomatoes and apples are in prospect, according to a professor at the University of Manitoba.

Dr. L. H. Shebeski, head of the plant science department, told the Canada Food Technologists' Association in Winnipeg recently that scientists aided by electrons and chemicals are working to develop bigger and better food plants.

New species of plants not previously found in nature can be produced by a combination of chemical and physical techniques and selective breeding, he said.

The chromosome patterns of plants could be "re-shuffled" and mutations created by x-ray radiations, by certain chemicals, and by what are known as "temperature shock" treatments.

"Some of these hybrids and mutations show features that we may ultimately develop as bigger and better plants resistant to our major insect pests and rust infections," he said.

Quick Canadian Quiz

1. Of the six Great Lakes, which has the greatest area on the Canadian side of the International boundary?
2. In 1939 there were 51,700 new dwellings units completed in Canada. What was the 1955 total?
3. When first introduced 10 years ago family allowance payments cost just over \$200 million annually. What is the present yearly cost?
4. Who was Governor-General of Canada at the time of the outbreak of World War I? Of World War II?
5. What proportion of the national income of Canadians is taken in taxes?

ANSWERS TO QUICK QUIZ

1. About one-third.
2. Estimate for the coming year, \$399.2 million.
3. 1. Lake Huron. 4. Duke of Connaught; Lord Tweedsmuir.
4. 1. 127,552 new dwellings complete in 1955.
5. (Material prepared by the editors of Quick Canadian Facts, the pocket annual of facts about Canada.)

FAMILY FALL

Mrs. Sybil Wallace fell and broke her hip as she stepped into the home of her mother, Mrs. T. B. Wood of Bryan, Texas.

Mrs. Wood and her other daughter, Mrs. Clara Wallace, took Mrs. Sybil Wallace to a hospital. At the entrance there, Mrs. Wood fell and sprained an ankle and Mrs. Clara Wallace fell and broke her wrist.

Cracked eggs are big seller

Cracked eggs at prices 10 to 15 cents less than grade "A" large eggs sell well, according to a study made by a Cornell University marketing specialist, Erman Moore.

Moore spent 18 months studying the situation. He and his associates coined the trade name "Econ-o-craz" and used economy as the main selling point. The eggs were put in a small pulpboard carton that protected the eggs from further damage and prevented leakage.

Moore found that egg sales jumped six percent in the first year, and the broken eggs accounted for more than one-fourth of all the sales.

Moore then made a postal card survey.

"Price was the most important

Runs business by finger flick

Mrs. Laura Bloxom, a pretty young mother of two daughters, established a business in Sandpoint, Idaho, with a flick of her finger.

That flick of the finger is almost the only movement she can make unaided. Mrs. Bloxom is a polio victim.

Late in January she began a personal telephone service in the northern Idaho city of 4,200. Her first customer was the Sandpoint Camera Club, which hired her to call its members and inform them of a coming meeting. Nearly 100 percent of the members, called by Mrs. Bloxom, attended.

reason for buying the eggs," he said. "And about 70 percent said they bought cracked eggs in place of other eggs."

Ticklers.

By George

"Believe me, lady! All I can give is 50 cents! I hate to think what dumping all this brass will do to the stock market!"

Ten Word INTELLIGRAM

Check the correct word:

- 1—Monaco is a (principality) (kingdom).
- 2—Late comedian Fred Allen's real surname was (Sullivan) (Allen).
- 3—He died (in an accident) (of a heart attack).
- 4—Navy's mighty carrier Forrestal will see service in the (Pacific) (Mediterranean).
- 5—Hurricanes in '56 will be given names of (boys) (girls).
- 6—France has rushed reinforcements to (Algeria) (Cyprus).
- 7—(Some) (no) United States scientists are spending the southern hemisphere winter in Antarctica.
- 8—Administration's proposed foreign aid program would cost (three billion) (five billion) dollars.
- 9—Major portion of funds would be toward (military) (economic) aid.
- 10—Major league baseball play begins third week in (April) (May).

Count 10 for each correct choice. A score of 0-20 is poor; 30-60, average; 70-80, superior; 90-100, very superior.

NOTICE

The Alberta Liquor Control Act

The Special Committee appointed by the Legislative Assembly at the recent Session for the purpose of reviewing the provisions of the Alberta Liquor Control Act in order to recommend amendments thereto, will receive written briefs from interested persons, groups, and organizations prior to June 1st, 1956.

Representations in support of the briefs submitted by organizations or groups only will be heard commencing June 18th.

Organizations and groups that submit briefs will be advised when to appear before the Committee.

Twelve copies of the briefs should be sent to: The Clerk of the Legislative Assembly, Legislative Building, Edmonton, Alberta.

R. CREVOLIN, Secretary of Committee.

'Professionalism' ruins sport

That's the charge made by Rodrick Haig-Brown, writing in the current issue of Maclean's magazine.

Professional standards, attitudes and "ethics" are forcing themselves ever deeper into the amateur field, he declares.

Enjoyment is the whole purpose of sport, says Haig-Brown. "The winning or losing a game is not important. But the professional doesn't play for fun — he works at it for a living."

"He may be a lighthearted individual who likes to enjoy himself; he may be an honorable man who wants to observe every rule faithfully... but he had better not let these considerations interfere too much with the business of winning, or he won't be earning a living very long."

The need for amateur sport in its truest sense was never greater than it is today, the Maclean's writer asserts. "We need to develop a Canadian philosophy of sport; and let that philosophy be founded on the Greek model... not borrowed from the American deviation where anything goes."

Say Haig-Brown: "If Canadian sport, from its earliest to its most advanced stages, would turn resolutely away from professional models and standards and learn to play games for fun, it would attract more players and we should grow a better people."

"If newspapers," he adds, "would recognize bums as bums and heels as heels, instead of trying to pass them off as heroes, we should grow a more discerning people."

The forgotten patient

(Part 1)

By H. E. Smith, MA, MEd, PhD
Mental illness is rightly called the scourge of the twentieth century. It hospitalizes as many people as do all other diseases combined. Of course it has always been a scourge. But so many of the old-time scourges have been, or are being, conquered — malaria, diphtheria, small pox, and many others — that the spotlight is now falling on mental illness.

As with the other diseases, mental illness appears in many forms. The less incapacitating afflictions are usually called neurosis or psychoneuroses. These may be distinguished by such symptoms as chronic fatigue, partial loss of memory, paralysis of parts of the body, powerful compulsions to repeat certain acts or entertain certain thoughts, and numerous others. Such afflictions drive people to doctors but seldom to hospitals.

The more serious disorders are roughly classed as psychoses. Common forms are senile psychosis, schizophrenia, manic-depressive psychosis, paranoia, and alcoholic psychosis. In these disorders the person may not know whether he is, what day or month it is, or even who he is. Hospitalization temporary or protracted, is usually required. It is such disorders that account for about one-half the bed space in all hospitals in Canada.

The majority of mental disorders are somewhat vaguely described as personality or functional disorders. This means that while the physical organism may not be in the least impaired something is wrong with the way it works. The happy integration of impulse, aptitude, will power, memory, and the like, has been split, and minor chaos results. In short, the disharmony is one of personality. Such may be contrasted with organic disorders, as alcoholism and senility, which reflect organic destruction or impairment. Epilepsy, in its various forms, may be either functional or organic or both.

Any one who had the choice of mental or physical illness should choose the physical, especially if he wants comfort in his distress. His prospects are much greater for sympathy and understanding, for visitors and flowers. He will certainly receive more medical and nursing attention.

The reason is obvious: physical illness is respectable, almost honorable. Sometimes they are glorified in counted as marks of distinction. On the other hand mental afflictions are strange, not much understood. Frequently the manifestations are bizarre and even fantastic. Thought processes and

emotional reactions may appear, quite eclipsing or overwhelming the familiar ones.

Our feelings of estrangement, mystification, and amazement are easily explained. We probably know neither the causes nor the remedies. If the patient remains with us we suffer daily. If he is taken away we are tempted to forget. Of the 4,200 men, women and children now in Alberta mental hospitals, a third of them never receive a visitor, and hundreds never receive a personal gift, except perhaps from fellow inmates. These are the forgotten patients. One of the objectives of the Alberta Division, Canadian Mental Health Association, is to organize a program which remembers these forgotten patients.

Boom In Northland

Heavy employment placements in the Northwest Territories and the Yukon provide signs of a booming year of mining activity in the northland, says G. H. Finland, manager of the Alberta and Northwest Chamber of Mines.

April employment placements totalled 500 this year, putting employment at least two weeks ahead of last year. Indications are that placements will exceed last year's 3,000 if men are available.

The chamber is reaching across Canada from Toronto to Vancouver to find skilled men for the northern mines. Skilled workers are scarce and Mr. Finland said "there are some indications labor of all classes will be in short supply before the season is over."

Workers are being brought in from Toronto, Winnipeg, Vancouver and Saskatoon, the mining towns of Porcupine and Sudbury, Ont., and from numerous small farming communities in between.

The range of employment indicates heavy activity in both mining and construction, Mr. Finland said.

"A substantial number" of men have gone to the Cassiar Asbestos Ltd. development in the Watson lake area of northeastern British Columbia.

Men are being sent to United Keno's lead, zinc and silver operations in the Yukon as seasonal replacements and to handle the spring work new opening up.

In the nearer northern area, men are heading for the Giant Discovery and Consolidated gold mines and the Rayrock uranium development at Yellowknife.

A heavy demand for men also has been experienced at Uranium City, Sask., where 10 underground operations are now under way. Men are needed there as seasonal replacements and to take part in preparations for an active summer.

National Parks Visitors Cautioned On Pets

Canadians travelling with pet dogs or cats are again warned they must have an anti-rabies vaccination certificate for each of their pets before bringing them into any of Canada's Western National Parks. This requirement is a continuation of one of the rabies control measures instituted in 1953 following a serious outbreak of the disease in Canada.

The control measure is provided for in the National Parks Game Regulations and applies to the following National Parks: Mount Revelstoke, Glacier, Kootenay and Yoho, in British Columbia; Banff, Jasper, Waterton Lakes and Elk Island in Alberta; Prince Albert, in Saskatchewan; and Riding Mountain in Manitoba.

National Parks officials explained that the continued control measure is considered necessary to protect wildlife in these federal game sanctuaries. The certificate accompanying each pet must show that the cat or dog has been vaccinated against rabies within the twelve months immediately preceding the date of entering the Park.

Dog and cat owners are also reminded that they must obtain a licence for their pet on entering a National Park. A licence costs \$1.00 and is good for 30 days in any National Park in Canada.

Dogs must be kept on leash at all times when in a National Park.

Advertising...

Modern advertising is a necessity to hold and build business. Be proud of your business, of the goods you have to sell, of the services you have to offer in your particular line. Show the progressive spirit and the desire to serve by advertising. Do not hide your light under a bushel — proclaim far and wide who you are and what you have to sell and where your place of business is, for public memory is short, and advertising is a powerful aid to all types of businesses. Moreover, people as a general rule shop where they are invited.

Albert E. Liddle, Former Jeweller, In Oxnard, Passes

Albert E. Liddle of Pleasant Valley Road, who operated a jewellery store in Oxnard for 25 years, died at 4 a.m. today at a local hospital after a short illness.

Mr. Liddle, a past member of the Oxnard Elks and Lions, served on the Grand Jury in 1954. He was an active member of the Methodist church.

Mr. Liddle was born Oct. 19, 1885, in Stratford, Ont., Canada. He moved to Oxnard in 1921 and was in the jewelry business until 10 years ago when he started lemon ranching.

He was married June 4, 1913, in Strasburg, Saskatchewan to Margaret Riddell. Besides his wife, he leaves a daughter, Mrs. Calvin Ross of Bakersfield; a son, Raymond K. of Camarillo; 2 brothers, George T. of Pomona and Alex of Victoria, British Columbia; and 5 grandchildren.

A son Billy, was killed in an auto accident at Santa Barbara in 1937.

Funeral services will be arranged later by the Diefenderfer-Alhiser Mortuary.

Mr. Liddle was a jeweler in Coleman years ago.

when Amy Shimizu, daughter of Mr. and Mrs. T. Shimizu became the bride of Mr. Donald Krish of Coleman, Alberta. Reverend Peter Teichroeb performed the wedding ceremony.

Given in marriage by her father, the bride chose a white semi-formal gown with lace over tulle and satin with a strapless bodice, topped with a matching lace bolero. Her short veil was held in place by a headpiece of folded tulle with flowers set in the folds. Her bouquet was of red roses.

The bridesmaid, Miss Gladys Kaji wore a blue semi formal gown and carried a bouquet of yellow carnations tinted with pink. The best man was Norman Krish, brother of the groom.

A reception was held at the Commercial Hotel diningroom where Mr. Jim Brown proposed a toast to the bride.

For her going away outfit the bride wore a grey suit with pink accessories and a pink carnation corsage.

Out of town guests were Mrs. W. Krish and Budon, mother and sister of the groom from Coleman, Alberta and Mr. Hiroshi and Reiko Shimizu, cousins of the bride from Vancouver.

Hope Standard

Bounties on Crows & Magpies will Continue

It was announced today by the Honorable Norman Willmore, Minister of Lands and Forests that the Department of Lands and Forests has decided to continue for one more year the program of paying bounties on crows and magpies at five cents per pair of feet up to a maximum of ten thousand dollars. The campaign will be carried on as in the past by the Alberta Fish and Game association and its locals.

The department will continue to study and review the outcome of the campaign in order to properly evaluate any beneficial results. The study made so far by the department would indicate that a planned campaign against crows and magpies will produce better results at much less cost. The department will give serious consideration to abandoning the present program in favor of a

planned campaign against these predators.

Investigations carried out in various parts of North America indicate that the bounty system is not serving its purpose. In Alberta a planned campaign against coyotes has been extremely successful and the cost much lower than the former system of paying bounty. Mr. Willmore said that this type of predator control campaign can be supplied and concentrated very effectively in the area where it is required most.

Letter to the editor

April 23, 1956

Editor,
The Journal,
Coleman, Alta.

Dear Sir:

Once again the Red Cross Campaign month of March has passed and once more it is time to write to you to thank you for the generous support and co-operation you have given the Society. To say "we appreciate" your kindness is a most inadequate way of expressing the way we feel for it is through your assistance that the people of the province rallied around to support Red Cross.

We do thank you, most sincerely, for your help, and hope that throughout the coming years the Society will continue to merit your support.

Yours sincerely,
A. M. Cairns,
Hon. Chairman, Publicity,
Alberta Division, C.R.C.S.

Blairmore Curling Club Holds Fine Windup Banquet

The Blairmore Curling Club wound up its most successful year at a banquet held in the Elks Hall in Blairmore, Alberta, to be the ladies of the Blairmore Order of the Royal Purple.

Following supper, president of the club, Tino Catonilo thanked all the members of the club and paid tribute to the drawmaster Congdon and Howard Dancy and to vice-president, G. Bannan, for the efficient way the club's activities were handled during the season.

Vice-president Bannan in a short address expressed the thanks of the local club to the Fernie, Coleman, Bellevue and all participating rinks that lent assistance to make the year's activities so successful and eventful.

Mayor William Grey then congratulated the Curling Club for the excellent way that the winter's activities were carried out and also added that he felt sure that future seasons would also meet with success in the new Blairmore arena.

President of the club, Tino Catonilo then announced the winners of the trophies and called upon the various sponsors to make the presentations.

The Pass Hotels Trophy presented by Sonny Richards, was won by the Howard Dancy rink, comprising, H. Dancy, T. Catonilo, F. S. Radford and H. Culham. The Blairmore Curling Club Trophy presented by G. Bannan was won by the F. Catonilo rink comprising F. Catonilo, E. Fantin, T. Slapak and Wilbur Raymond.

The West Canadian Curleries Trophy presented by William Bird was won by the Jim Anderson rink comprising, Jim Anderson, A. Decoux, V. Cologrosso, Delki Peressini and W. Gray.

The Crow's Nest Pass Motors Trophy, presented by Dick Morgan was won by the D. Grosse rink comprising, D. Grosse, J. Cartwright, L. Leskovsky and Jack Oakes.

The Thornton Trophy presented by Ken Thornton was won by the Wilkie Rink of Burmis.

Following the presentation of prizes Mr. Catonilo called upon Bob Craig, president of the Fernie club, who congratulated the local club for its efforts this season. Mr. Craig stated that the Bunby Bonspiel held in Blairmore had started something big and since curlers from Fernie and districts around the Pass were not able to get to the bigger centres such as Lethbridge and Calgary to enter, they would certainly enter and support the Blairmore bonspiel. He was of the opinion that the spiel held last season made up of 88 rinks would grow in size next year and with the ideal location that Blairmore has, he felt that this would be an ideal place to wind up the curling season. He also stated that felt that interclub competitions in the Pass should be revived to create interest for the curlers since he felt that two spiels per season was not enough. In closing he pledged the support of the Fernie club to the local curlers.

President Tino Catonilo then called upon Ken Thornton of Blairmore who moved to Pincher Creek recently and presented him with a gift of appreciation from the curling club for services rendered during the year.

Duke Kwame of Coleman, also commended the Blairmore club on its fine arena and an excellent season of curling.

During the course of the evening entertainment was provided by vocal solos presented by Buck Wadsworth of the Alberta Ranch Boys, solos by Henry Zak of Blairmore, accompanied by Bob Blake on the piano, piano accordion solos by Ralph Vigna of Blairmore and a recitation given by Joe "Lucky" Leskovsky of Blairmore.

A Police Chief Speaks Up

Few police chiefs would have the courage of Chief Donaldson for his insertion in The Hanna (Alberta) Herald: "When I took over my present position from ex-Chief Winkler, I inherited enough worthless paper in the form of bum cheques to plaster the public library. I am not satisfied that you merchants lack the intelligence of business people in other towns I have policed. In fact, I am convinced you all possess a high degree of commercial acumen to charge prices you do not get lynched, but let anyone hand you a slip of pure unadulterated gutta-percha with some figures and a name on it and 'swish' it's in the cash register."

What Is Tourist Service Week

Tourist Service Week, May 6th to 12th, 1956, is Canada's traditional spring campaign stressing the needs and desires of all who visit and travel in our country. Since 1946 Tourist Service Week has provided a recurring occasion for special attention to tourist trade problems by all appropriate provincial, regional and municipal authorities, local businessmen's associations, shops, restaurants, hotels, motels, resorts, service clubs, the schools, the press, radio and TV.

While Tourist Service Week is only on one week in the year, its message to Canadians is something for them to act on every week of the year round — to enhance in every possible way the reputation of their own communities and of all Canada as hosts to all visitors.

The widespread benefits of a healthy "Visitor Industry" are felt first at the local level where visitors spend money. One of the aims of Tourist Service Week is to correct the mistaken idea that proceeds of tourist trade are shared only by those in certain fields of activity such as accommodation and transportation. The fact is, everybody benefits. Whatever you happen to do for a living — whether you work in industry, farming, trade or some other business or profession — you can be sure that some part of your income originally came from VISITORS to your community or your country.

Goodwill W. A. News

At the regular April meeting of the Goodwill W. A. John Cousins, Michael Hill and Jerry Lonsbury reported on Boys' Parliament, which they attended in December.

Each boy spoke on a separate section of the parliament, explaining the purpose and the training given and thanked the group for their part in sending them.

It was decided to ship old woolens and cottons to Fairfield's in Winnipeg for re-making into rugs and blankets. These articles would be for sale in the fall.

The Anniversary Supper will be held Monday, April 30 from 5 to 7 p.m. in the Church clubroom.

Members agreed to have the club room painted and the floor improved. Mrs. R. McAuley invited the ladies to hold the next meeting at her home on May 14 at 7:30 p.m.

HIT ON HEAD—Montreal Canadian goaler Jacques Plante is seen going to the ice, after he was struck on the head by a shot from Larry Popein's stick in a Stanley Cup game. The puck ricocheted about 25 rows into the grandstand, but Plante poked himself up and didn't seem to suffer any ill effects from the blow.

TERRIER—Bite of the USS Boston is worse than her bark. The world's first guided missile cruiser, she's shown launching a "Terrier" guided missile during Caribbean exercises. Navy spokesmen say she'll join U.S. Sixth Fleet in Mediterranean waters during the latter part of the year.

STINGER—Already beginning to pass its mother plane, a Falcon an-to-an guided missile streaks along just above the nose of this Northrop Scorpion F-88H all-weather interceptor. The Scorpion is the first Air Force operational fighter to be equipped with the deadly missiles, which are launched after extension from housings in wing-tip pods. Picture is from one of the first official U.S. Air Force photos to show the new Scorpion during manoeuvres. Said to be the Air Force's most heavily armed operational fighter, she succeeds the Scorpion F-86D in top fire-power rating.

MOTHER'S DAY STAMPS—The First Lady of the United States displays the first sheet of this year's Mother's Day seals, presented to her in a ceremony at the White House, as the fourth annual fund-raising campaign gets under way. Proceeds of the sale will finance research and educational projects for better maternal and infant care. Mother's Day this year is May 13, second Sunday of the month.

WEATHERVANE—The camera placed this skier atop a utility pole as the unidentified high-jump artist practiced at Battle Creek ski jump in St. Paul, Minn.

COCKTAIL TIME—Short-jacketed bolero suit in Navy blue is preview talk in New York City cocktail circles. Woven of light-weight navy's wear mohair, it has a high midriff and is worn with an organly gilet.

JUMPER-SUIT—Ultralight-weight jumper in silk-and-wool tweed is converted to a suit by addition of matching jacket. It's bow-tied at waist and faced with detachable, printed silk.

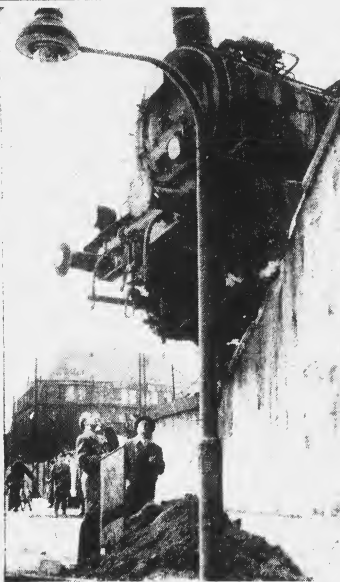

CAPE—Two-piece black flannel jumper, white blouse and elbow-length cape of tweed are combined for spring and early summer wear. Ensemble is being seen these days in New York City, where it received first showing.

UGH—No Little Miss Muffet, she, Lillemor Knudsen, dancer, wears this on-the-shoulder horror as decoration (?) during her act at a night club in London, England.

RETIRED—After years of top billing on the French music hall stage—and internationally too—the famed U.S. born colored Parisian singer and dancer, Josephine Baker is to retire. After making one more appearance, she will join her husband, retired orchestra leader, in their country home and devote her life to bringing up orphans from all parts of the world. Here she is being greeted by three of her orphans.

CLOSE CALL FOR PEDESTRIANS—A concrete retaining wall stopped this locomotive from plunging down on pedestrians in the centre of Duisburg, Germany. The locomotive jumped the tracks while shunting on the railroad station. Pedestrians gazed up at the engine jutting out from the wall. The mishap sent strollers scurrying in all directions. No one was injured, however.

JUST RESTIN'—Unidentified gladiator is out on the scorecard of Lt. Monty Moffat, who maintains a hands-off attitude during a Canadian Army boxing meet at Hower, West Germany. The bell saved Sleeping Beauty from an official KO.

Old sweater is passport for refugees

A woolen sweater knitted 38 years ago has turned into a passport for an Arab refugee family.

The sweater was knitted during World War I by a 16-year-old girl in New Rochelle, N.Y., who wanted to do something for American soldiers fighting in France.

Mrs. James G. Beveridge, now wife of the pastor of a Belmont, Mass., church, said she turned the sweater over to the Red Cross.

Her name, then Margaret Todd, was sewed inside, along with her New Rochelle address. The garment was shipped to France but she never heard from the soldier who presumably received it.

About a year ago, the sweater turned up in the hands of a minister who gave it to an Arab family.

The family wrote from Amman, Jordan, to thank the girl for the gift.

The letter was addressed to Mrs. Beveridge's New Rochelle home and under her maiden name. However, a clerk in the New Rochelle post office recognized the name and forwarded the letter to Belmont.

A correspondence began between the two families. Mrs. Beveridge learned there were six children and that the father was an accomplished tailor. They wanted to come to America.

Mrs. Beveridge said she and her husband decided to act as sponsors. She exacted one promise from the Arab family, though. She said she wanted to see the sweater that managed to hold together for 38 years.

Do FALSE TEETH

Rock, Slide or Slip?

PASTERETH, an improved powder to be sprinkled on upper or lower plates, holds false teeth more firmly in place. Do not slide, slip or rock. No gummy, gooey, sticky taste or feeling. PASTERETH is alkaline (non-acid). Does not sour. Checks "bad odor" (dental breath). Get PASTERETH at any drug counter.

How to Reduce Swollen Painful Piles

Here is a safe, clean, easy way to get real relief from the nagging distress of swollen, painful piles without the inconvenience of ointments, pile slips or suppositories.

The secret is in taking just one small Hem-Roid Tablet, with water, two or three times a day. Works through effective INTERNAL action. Quickly eases constipation, relieves itching, soreness and pain. Helps shrink piles and permits them to heal.

Why suffer needlessly when Hem-Roid offers you so much. Get a package today. See for yourself how safe Hem-Roid is. Users, how effective it is and how much comfort it will quickly bring you.

All drug stores. Low cost. Money refunded if you are not 100% pleased.

OUR COMPLETE SHORT STORY —

the technical point

—By RICHARD DEWITT CARR

AFTER the waiting, Greg should have been glad to see her. The reflection looked at him from the mirror behind the soda fountain. She was toying with a brownish-looking drink. He carefully noted the light hair that was neither blonde nor brown, the clear features and the creamy skin. To Greg, these were important details, they fitted the description, but that very fact left him uneasy. He must be sure.

He sipped his own drink and waited. Presently, the girl picked up her check and moved behind Greg and the other people sitting at the counter. She paid at the cashier's desk and stepped through the street door.

Timing his movements so that he could be a few paces away and still observe, Greg followed.

There was something elusive, exciting about her. Perhaps it was the assurance in the click of her heels, the swing of her walk, or the way the sun played golden-havoc in her hair. So this girl had to be Laura King!

Once she turned half about, glanced back, and he wasn't sure she hadn't noticed him.

About five minutes and two city blocks later, her feet hesitated, moved from the flow of people and turned into the station. Because it was less crowded here, Greg carefully lengthened the distance that separated him from her. But he kept his eyes on her, through the street door and on, up the long steps that led to the trains.

The waiting room held no interest for her. She didn't stop until she reached the train platform.

She had, Greg reasoned, also timed herself perfectly, for a train late was opening and she seemed now to be searching for a familiar face among the passengers filtering past. She fingered the long strap on her bag nervously.

"He waited until the last person had come through the gate. He was certain now and the time had come."

He sauntered over. "Hello, Miss King." His voice was easy, almost genial. He nodded toward the silver shield in his half-opened hand.

"Yes," she said, "I understand." The train announcer's voice broke blatantly from the amplifiers. A truck dragging a load of baggage vanished by the end. A gate clanged shut.

Greg had always liked his job.

Unpleasant at times? Certainly, it was. But Greg, if you don't do your work, there would only be someone else. Someone must always do the unpleasant tasks.

"Over here," he said, taking her arm. "We can sit down."

At one end of the waiting-room was a restaurant. They sat down at a table.

"We have been looking for you quite a while, Miss King." His tone made the words a question.

"I was looking for someone, too," she said quietly.

"Who?"

"The one man who might help me."

He liked the level steadiness in her eyes.

"And when you found him—he let you down." Greg was startled at the final sound of his own words.

"He said he would be on that train. He promised to meet me."

Greg took a pack of cigarettes from his pocket, offered her one, but she shook her head.

"How could anyone help you?" he asked bluntly. "The bank says the entries were made by Laura King."

Her face was taut, tense. She leaned forward. "When an executive like Rand Cleverson tells you to do something, you do it. They began to audit the books and he wasn't there and—well I just kept staring at his name on that brass-lettered block on his desk."

She looked down at her hands folded before her on the table. The knuckles were white. "The longer I stared, the more I realized how he had planned, thought it through. I finally reached him by telephone and he said he would talk to me."

She looked out toward the train platform. "Silly, of course, I should have known he wouldn't be on that train."

"We might find him," Greg suggested.

"There's no proof. It's his word against mine. The law, everyone, will say I'm guilty!"

For a moment Greg watched her closely. Then he got up slowly, deliberately. "Well, Miss King, I guess that's all."

They walked out, into the waiting-room and he could feel her hand, light, touching his coat-sleeve. They moved on, followed down the long steps to the street level. They were passing the open telephone booths and Greg stopped.

"Wait," he said. "I want to call Headquarters."

He dialed. The voice came. It was saying plenty. When it finished, Greg slipped the receiver back on the hook. He turned quickly to the girl.

"They brought Cleverson in to ask him a few routine questions and—" Greg paused, pushed his hat up at a rakish angle. "Cleverson confessed, broke down!"

Laura King trembled visibly and turned pale. Her eyes fluttered and she swayed, half-fainted, into his arms.

"There, there," consoled Greg. "Why, I won't even have to take you in." He swallowed hard. "The warrant for you was dropped two hours ago, when Cleverson cracked. Technically, I shouldn't have picked you up. I—"

"But I'm glad," she looked up with a weak smile. "I'm glad that you did. Technically, of course."

RESCUE MADE—Patrolman Gunnar Carlson leans over Boston police launch on Charles River to rescue Michael Grenzel, 62, who fell from bridge during a snowstorm. Grenzel, unconscious when pulled from the river, was sent to hospital suffering from exposure.

On The Side: E. V. Durling

Of all the countries in the world Scotland has the highest percentage of happy marriages. . . . It was Lord Roseberry who observed, "Whether it is a question of race horses or men, breeding will tell." . . . In the United States the number of women of voting age exceeds the number of men of voting age by about 600,000. . . . It is against the law to sell imitation automatic pistols or other types of toy guns in Switzerland. The Swiss don't believe in imitation guns as toys for children. . . . The faster you smoke the more nicotine you will absorb. Call this to the attention of your wife. Most women smoke cigarettes much too rapidly.

Such is love

It was Eleanor Duse who said, "I have seen a homely woman transformed into one of impelling beauty, in several days' time, by the alchemy of love. Love not only creates beauty, but where their is beauty already it preserves it. Women feed on caresses as a bee feeds on flowers."

Iron Man of the mound

Pitcher Joe McGinnity was nicknamed the "Iron Man". Joe did have unusual endurance but the real "Iron Man" of major league baseball was "Big 8" Walsh. In the season of 1908 Walsh pitched 53 games for the Chicago White Sox and won 40 of them.

Why work for a living?

Ever hear of a man winning \$1,700,000 on a horse race? It happened. In 1931 Emilio Scala, a London restaurant owner, had a ticket in the Irish hospital sweepstakes for the Grand National Steeplechase on a horse named Grapple. That horse won and Scala's ticket called for the first prize which then amounted to the equivalent of \$1,700,000 and no income tax to pay.

Help wanted

The Bible tells us that Joseph, before he called on Pharaoh, changed his raiment and shaved. But what did Joseph shave with? How many times over did he have to shave? Then consider the case of Marc Antony. According to history Marc shaved 10 times over before he called on Cleopatra. This indicates that Cleo was a girl really opposed to that five o'clock shadow. What did Antony shave with? Can some recognized authority on the history of shaving give us the answers to these queries?

Canadian statistics report

(A Weekly Review)

Merchandising: Business of wholesalers as a whole was 11 percent larger in dollar terms last year than in 1954; reached an estimated \$6,749,508,000. Proportionately, dealers in automotive parts and accessories had the biggest increase.

Universities: Full-time university-grade enrolment in Canadian universities and colleges of higher education was more than 6 percent larger at December 1 last year than a year earlier, totalling 71,600 against 67,500. Enrolments were larger in most faculties; exceptions were medicine, pharmacy and veterinary science. Largest numerical rise was in engineering and applied science.

Foreign Trade: Final, detailed figures show that the record-breaking total value of Canada's imports in 1955 was due to gains in a wide range of both consumer and producer goods. Machinery, automobiles and parts, aircraft and parts, rolling-mill products, engines and boilers, crude petroleum and petroleum products were among the commodities with largest increases. Gains were also general for all main geographic areas, with the biggest increase in imports from the United States.

Agriculture: Canadian farmers plan to seed less spring wheat, barley and spring rye this year than in 1955, but a lot more flaxseed and somewhat more oats and mixed grains. Next to the flaxseed increase, biggest change expected is a drop of more than a million acres in summerfall. In the Prairie Provinces conditions before and during seeding, of course, may alter these intentions. . . . Meat consumption per capita was 3.5 pounds larger last year in Canada than in 1954, increasing to 151.5 from 148 pounds. A rise in pork consumption was mainly responsible for the change.

Industrial Production: Canadian industrial production, as measured by the Bureau's composite index, was nearly 9 percent larger in January of this year than last. Manufacturing was up about 8 percent, with a larger gain in the durable than non-durable field, while mineral production was a sharp 18 percent higher.

SASKATCHEWAN'S PROSPERITY

begins with **YOU!**

One of the main functions of "BUY SASKATCHEWAN'S PRODUCTS WEEK" is to further the development of manufacturing industries in the Province, and focus attention on the variety and range of products available to Saskatchewan consumers by local industries.

APRIL 16th to 21st 1956

Buy SASKATCHEWAN PRODUCTS WEEK

WHAT SASKATCHEWAN MAKES — MAKES SASKATCHEWAN

It is not enough to support Saskatchewan Industry for one special week in the year and then return to old buying habits. Saskatchewan factories not only produce consumer goods; they also provide work and wages for the people of the province. By buying Saskatchewan-made products wherever possible throughout the year, you are promoting your own future through helping to build a more prosperous Saskatchewan.

SASKATCHEWAN INDUSTRIAL DEVELOPMENT OFFICE

TRADE INFORMATION SERVICES DEPARTMENT OF CO-OPERATION & CO-OPERATIVE DEVELOPMENT

SOPRANO TO SING AT MONACO WEDDING—Marguerite Paquet, Young Quebec singer, has been invited to sing with the choir at the marriage of Prince Rainier of Monaco and actress Grace Kelly. Miss Paquet, a soprano, has been studying music in Paris for three years on a scholarship provided by the French and Quebec governments.
